

LP WATCH.ORG

The Neighborhood Watch Resource for the Legacy Park Community in Kennesaw, Georgia

OCTOBER NEWSLETTER

Welcome to our first newsletter for the Legacy Park's Neighborhood Watch. We will be sending out a monthly newsletter with pertinent information about Neighborhood Watch in Legacy Park.

Halloween is our big event this month, be sure to keep everyone safe and review our tip of the month at lpwatch.org. Please save the Kennesaw Police Department's non-emergency number (770-422-2505) in your cell phones and use it if you see suspicious activity while you are trick or treating with your children.

Neighborhood Watch is planning an infant/adult C.P.R. training class for all interested residents in December or January. This will be the first class in our training program- in the future we hope to have classes in first aid, water safety, stranger safety, fire safety and car seat safety. If you have any other suggestions for training, please email the coordinator at coordinator@lpwatch.org.

Congratulations to the Luther Family on their new addition. Officer Luther, our biggest supporter of Neighborhood Watch, recently welcomed a baby girl into his family. We are taking donations to buy a gift card to welcome his new baby and to show our appreciation for all of his support. You can drop off donations to Brandi May at 4318 Brighton Way in Highcroft or call at 678-290-6835 and I will stop by and pick up donations.

Facts about Neighborhood Watch:

- Neighborhood Watch is **not** guard duty. It **is** getting to know your neighbors, focusing on community issues, forming action groups and finding resolutions to neighborhood problems. It's a partnership between the Police Officers and the communities they serve.
- "Suspicious persons" calls are easier to investigate than actual crimes. Neighborhood Watch areas often generate more suspicious persons calls to the police but often experience lower levels of crime.

Have a Safe and Happy Halloween!
