

**1: What skills, resources, and expertise do you have that will benefit this community if you are elected?**

I am highly organized, personable, communicative, and possess a great number of leadership skills that benefit our community. My greatest resources are the time and willingness to serve our Board again—as well as the continual support and backing by my rockstar husband, Alex!

**2: What are you seeking to accomplish for the community if you are elected to serve on the Board of Directors?**

My desire in running for re-election is to continue to increase the offerings for residents, and their children, within the community. The Sports and Activities offerings in the neighborhood have never been greater, and I look forward to ways to increase participation. Additionally, I would like to accomplish a more pertinent and transparent role between the Board and our Finance Committee—this will ensure current success, but also set us up for an excellent financial future. Lastly, I seek to continue exploring a relationship with the Teen Advisory Board that improves relationships between teenagers in our community and provides them with ways to serve the greater Kennesaw area.

**3: What major projects in the community are you aware of that have been completed or resolved?**

The 2021-2022 Board effectively allocated funding for and navigated the completion of many projects. I attribute my knowledge of completion and resolve to having served as our HOA President last year. Projects that have been completed include: lighting the basketball courts, constructing the Pickleball courts, re-constructing the front entrance (...twice), and re-landscaping the front entrance (also, twice).

**4: If elected, are you willing to carry out your fiduciary duties as a Board member without being influenced?**

After having served our Board for the past two years, I feel confident that I can continue to carry out the fiduciary responsibilities of our HOA. Though young, I am capable of making data-driven, logical decisions without interference or influence from people or unfounded personal beliefs.

**5: What does the mission of this organization mean to you as a Board member if you are elected to serve?**

To me, the most impactful parts of our Mission Statement include increasing homeowner participation, and partnership with the HOA Office staff. The privilege to steward our resources and giftings into offerings for our community is not lost on me. Examples of ways that I have directly impacted homeowner participation include the creation and implementation of *Cram Jam* for students in our neighborhood. Additionally, my investment in participation is furthered through my engagement with our Swim team through serving as a USA Certified Official during the 2021 season.

**6: Are there any concerns you have about serving on the Board of Directors?**

As an unbiased, professional, and ethical adult—I have no concerns about serving on our Board.

**7: How important is it to you to address the homeowners other than the monthly HOA meetings, i.e., this is Board members conversing with the community together?**

Communication is so important, and I believe that my role on the Board is to respond to resident email/correspondence in a timely manner and engaged with homeowners at any and all events. Perhaps the Board could provide blurbs to the Town Herald to increase communication—but apart from that, I believe that communication is best-satisfied through in-person and email.
