

BRENDAN CHAMPION HIGHCROFT

Hello! I'm Brendan Champion, and I'm running for a position on our HOA board. Having lived in our wonderful community for over two years, I've witnessed firsthand the importance of strong leadership and collaboration. In my professional life, I began my construction career from the ground up, starting in entry-level positions where I gained invaluable hands on experience. Through hard work and dedication, I advanced to a supervisory role, where I now oversee multiple projects. In this position, I make critical decisions and manage teams, ensuring that our work meets both quality standards and deadlines.

As a dedicated community member, I believe our large neighborhood has the potential for a stronger sense of belonging through increased community events and activities. I aim to actively work towards creating a more connected community by initiating diverse initiatives, that encourage interaction across all areas of our neighborhood, allowing residents of all ages and interests to engage with one another, and build meaningful relationships. I would also like to focus on updating regulations regarding exterior paint colors, landscaping options, and potentially modernizing certain design elements while still upholding the established architectural style and preserving our neighborhoods character and values. Overall, by working towards these goals I believe we can enhance our neighborhoods sense of community and overall quality of life. Outside of my professional work, I enjoy walking my dogs in the many trails throughout our community as well as enjoying all the amenities and social events with my family that Legacy Park has to offer.

I am excited about the opportunity to serve our community and bring fresh ideas to the table. Thank you for considering me for your HOA board. Together, let's continue to make our neighborhood a great place to live!
